

DPD-6643-59

30 September 1959

MEMORANDUM FOR :

SUBJECT : CHALICE and Special "C"
Clearance List for JCS

REFERENCE : JCS memo, dated 22 September 1959
DPD-6547, dated 29 September 1959

1. Attached is a list of officers in JCS who are cleared for CHALICE and for Special "C" information. The asterisk indication designates those cleared for Special "C" that have not received a formal briefing. The double asterisk indicates personnel we recently cleared for CHALICE and these will also require a formal briefing.

2. As noted in our discussions, we need three types of information to complete our records on the officers listed in reference A and B. The first is biographic information such as full name, date and place of birth. The second is a Top Secret clearance certification. The third is a copy of their completed memorandum of understanding. We realize these will take some time to acquire, but they are needed to complete our records on these officers.

3. We regard the listed officers cleared for Special "C" as occupying a billet structure. Accordingly, their replacements are automatically candidates for clearance; however, an increase of this group will require specific justification.
